Community Kitchen + Garden

The Airdrie Rotary Community Kitchen is like a friendly meeting place for people and families. It helps us become closer and feel more connected as a community. You can join different programs and classes, rent the space, or take part in events to meet new friends and learn important cooking skills. It's a place where everyone can connect and have fun together!

We have many farmers and community members who grow food for the Airdrie Food Bank!

Volunteers

- Volunteers help in our warehouse pulling hampers, sorting food, picking up food, and taking care of the food bank.
- Volunteers also assist with events, special projects and other varies needs
